Re: Reference

Dear Rob

May I offer our thanks to you and your team for providing us with an excellent service over the course of the last year. I summarise our thoughts in the reference below:

“MDL Developments have been very impressed with the service and professionalism provided by Ascia Construction. The team is highly organised, very communicative, friendly and helpful. Any complex issues were approached in a pro-active and constructive manner, nothing was too much trouble, and despite the challenging conditions (imposed by covid 19), the team remained completely focussed on the task of completing our redevelopment project on time and on budget. We look forward to working with Ascia Construction again in the near future.”

Best wishes for 2021.

Yours truly,

Kristi Roger, Development Director
